Cordless Cleaner DCL280F / DCL281F / DCL282F

Satisfy Professional's Needs

More advanced features for professional use!

High power

+

High durability

DCL280F

Capsule type

Trigger switch + slide switch

DCL281F

Capsule type

One-touch push button switch

DCL282F

Paper dust bag

One-touch push button switch

BL motor provides high power and high durability.

Max Air Flow
1.5 m³/min

Max Sealed Suction
6.0 kPa

Quiet cleaning & Low vibration

- 1 achieved by noise absorbing sponge attached inside housing.
- 2 Using softer elastomer for the part that fixes fan cover, the vibration of housing is reduced, increasing comfort even in long continuous cleaning.

Trigger switch + Sliding lock-on switch

DCL280F only
allows for long continuous cleaning with less fatigue.

By moving 1 sliding lock-on switch to ON position, 2 interlocking trigger switch can be locked on for continuous cleaning.

LED job light

- illuminates the work area.
- also function as a battery capacity warning lamp

photo: DCL280F

BL
MOTOR

New internal construction prevents loose installation of filter/paper dust bag to protect the motor room from dust.

Pipe lock

Pipe is fixed with the locking mechanism to prevent it from accidentally coming off.

Pipe with beveled end

Cleaning of tight places can be done without nozzle by using the beveled end of pipe as a nozzle.

Paper dust bag (DCL282F)

Moving stopper prevents front cover from closing if paper dust bag is not installed tight.

HEPA filter is available (DCL280F / DCL281F)

HEPA
filter

Capsule type (DCL280F / DCL281F)

When capsule is installed securely, two ribs inside capsule press the inside frame of filter to hold the filter tight.
