

Cordless Random Orbit Polisher DPO600 150 mm (6")

High power similar to AC tool

Rough Polishing

Forcible rotation mode

Orbital action with forced rotation of the pad for rough polishing such as scratch removal.

Fine Polishing

Free rotation mode Orbital action with free rotation of the pad for fine polishing.

No codes, Less risks of damage for car body

Ergonomically designed knob handle provides precision and control in a variety of applications.

Accessories

Conveniently located speed dial enables operator to match speed to application.

Less damage for car body

- battery is less likely to hit a car body
- · Elastomer is covered for less damage

Finishing mode makes it easier to work fine polishing by keeping fixed torque and controlling rotation on heavy duty.
