### 72mm diameter nozzle

DUB362's extension nozzle and flat nozzle can be connected without adapter.

### 3-stage telescopic long nozzle

nozzle with an adjustment range of 100mm (4")

### Motor interlock system

The motor does not start up until the nozzle and fan cover have been properly installed.

### Variable speed control by trigger, with Cruise control lever for lock-on operation

Cruise control lever allows you to lock the variable speed control trigger at a desired power level to obtain the convenience similar to that of engine blowers.

### Sub handle

makes it easier to hold the machine sideways both in blower and vacuum applications.

# Vacuum

## Mode 1

Recommended for vacuum use, with a max blowing force of 7N.

And thanks to the proper suction power:

- Able to suction fallen leaves, and not able to suction stones.
- Able to perform a long continuous operation
