## Smooth cutting similar to that of a hand pruner

- Blade can be interlocked with the trigger, providing smooth blade movement similar to that of a hand pruner.

## Extra-sharp forged blade with made-in-Japan quality

Smooth and fine cutting thanks to the followings:

- Upper blade specially formed for less cutting resistance
- Sharp edges
- Higher blade strength obtained by using a special material for pruning scissors

## Comfortable backpack harness

- Compact and maneuverable for use in tight spaces
- Fits your body well even when you change posture
- The cord to the shear body can be routed through either left or right side.

## Switch box

- Can be worn on the waist belt or shoulder belt with the clip on the back, making it easy to:
- turn on/off Main switch.
  - check for error indication (overload, overheating, battery capacity warning, etc.) shown by two LEDs

## Controller box

## Controller box

Two batteries and Controller can be stored in the backpack.

## Controller box

## Slim body

- highly maneuverable for use even in tight spaces
- With a finger guard

## Arm band

## Switch box

## Holster

Provided that Ø15mm grapevines are cut:

# 71,000

(with two BL1850)

Lightweight  
**0.8kg**

## Blade opening adjustment

- Blade opening is adjustable in 2 stages according to the size of branches.
- When cutting slender branches, half-open cutting can increase work efficiency and runtime performance.
- High cutting speed provides smooth operation without any stress.
