# High visible green lines (SK700GD only)

#### 3 x full 360-degree laser lines

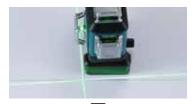

Full 360-degree line is created by letting the laser from a light source reflect on a cone mirror.

#### Rotary base with eccentric rotation mechanism

- Reduces setup time.
- Vertical laser lines can rotate around the defined plumb point up to 10° left and right (with a dial for fine adjustment).
- Eccentric rotation mechanism enables the laser body to rotate without changing the position of the defined plumb point, enabling easy line positioning.
